

FACE SHIELDS AVAILABLE

Hillstead Manufacturing is a small company in Covington County, Alabama that produces handcrafted, upholstered furniture and accent pieces. Due to the recent downturn in furniture sales, we have partnered with a company in Georgia to produce face shields. Our desire is to help fulfill the growing demand for personal protective equipment and keep our community employed.

We are currently able to produce 50,000 to 100,000 or more shields per week and already have a small inventory ready for immediate shipping. We only use domestically produced materials, and our products are assembled right here in our factory by the people of our community.
